---

To Whom It May Concern,

Mr. Darryl Ross has been under my care since June 24, 2021. He is in treatment for an alcohol use disorder. He continues to be actively engaged in treatment. He is progressing well and continues to be very insightful. He continue to take medications as prescribed, come in for frequent appointments, and has regular urine drug testing. It continues to be a pleasure to participate in Mr. Ross's care.

Best,

Nathaniel Bowling, MD,CM, CCFP  
Recovery Care
